CIVIL ENGINEERING

Citius Ltd specialises in the construction, maintenance and refurbishment of urban streetscapes throughout the greater Dublin area.

Our highly skilled workforce carry out quality work and their attention to detail ensures 100% satisfaction for all our clients.

Citius Ltd carries out full carriageway construction and carriageway repairs, constructing road realignments and new builds in both bituminous and concrete carriageways.

Our skilled employees construct concrete footpaths with high quality finishes. We have expertise in high quality granite paving on footpaths, bituminous footpaths, block paving and concrete flag construction.

The primary intent of the Policy on Traffic Calming is to address the concerns which the public have regarding the negative impacts of excessive or inappropriate traffic speed on public roads. Citius Ltd has extensive expertise in the construction of traffic calming schemes throughout Dublin.

Citius Ltd has extensive experience in the completion of drainage schemes. Concrete drainage lines of varying diameters and manhole construction can be completed with accuracy and precision.
